

• AI EMPLOYEE · PLAN 02

★ MOST POPULAR

A Full-Time Worker That Never Sleeps.

One AI employee that captures, qualifies, and follows up with every lead across every channel: calls, WhatsApp, Instagram, Facebook, your website, and SMS. It turns conversations into booked, paying customers, around the clock.

Client Plan Overview · 2026

THE REAL PROBLEM

Answering the Phone Isn't Enough **Anymore.**

Your customers now reach out everywhere: a call, a WhatsApp message, an Instagram DM, a Facebook comment, a website form, a text. Each one is a buying signal. But replying fast on every channel, and then following up until they actually book, is more than any one person can keep up with. That is exactly where good leads quietly slip away.

6 Channels

Calls, WhatsApp, Instagram, Facebook, your website, and SMS. One channel left unanswered is one more customer lost.

Minutes Matter

The faster you reply, the more likely you win. Leads go cold within the hour, often within minutes of reaching out.

1 & Done

Most businesses follow up once, then stop. Most sales need several touches. That gap is pure lost revenue.

Meet Your AI Employee

This is your AI Receptionist, upgraded into a full sales and support team. It does everything the receptionist does, then keeps going: it chats with leads across every channel, qualifies and scores them, follows up automatically until they book or opt out, requests reviews from happy customers, and tracks every contact in one visual pipeline. It works 24/7, never forgets a follow-up, and never lets a lead go cold.

WHAT IT REPLACES

A receptionist answers the phone. An AI Employee runs the whole journey from first message to booked customer, across every channel, for a fraction of what a sales and admin hire would cost. The next pages show everything that is built for you and how each piece puts money back in your pocket.

WHAT YOU GET · PART 1

Every Channel, Every Lead, **Followed Up.**

Everything in the AI Receptionist plan is included, plus all of the capabilities below.

OMNICHANNEL CONVERSATIONS

Omnichannel Chat AI

One AI handles live chat across WhatsApp, Instagram, Facebook, and your website. **Every message answered in seconds, no matter where it comes from.**

Automatic Lead Qualification & Scoring

The AI asks the right questions and scores each lead by how ready they are to buy. **You spend your time on the hottest opportunities first.**

Two-Way SMS at Scale

Real back-and-forth text conversations with many leads at once. **You reach people where they actually reply, without a team glued to their phones.**

FOLLOW-UP & NURTURE

Automated SMS + Email Sequences

The moment a lead goes quiet, a smart follow-up sequence fires automatically. **Every prospect gets chased until they book or opt out, not just the ones you remember.**

Long-Term Nurture Campaigns

Leads who aren't ready yet stay warm with helpful, automatic touchpoints over time. **Deals that would normally die quietly get revived instead.**

Contact Tagging & Smart Segmentation

Every contact is organised and grouped automatically as they interact with you. **The right message reaches the right person, every time.**

WHAT YOU GET · PART 2

Reputation, Pipeline & a Site That **Sells.**

★ REPUTATION & PIPELINE

Automated Review Requests

Happy customers are automatically asked for a Google or Facebook review at the perfect moment. **More 5-star reviews means more trust and more new customers.**

Reputation Monitoring & Alerts

Your ratings are watched around the clock and you're alerted to any issue early. **You protect your name before a single bad review can spread.**

Full Visual Sales Pipeline / CRM

Every lead is captured, tagged, scored, and tracked through clear stages. **Nothing falls through the cracks and you always know what to do next.**

Calendar Sync (Google & Outlook)

Bookings sync straight into the calendar you already use. **No double-bookings, no manual entry, always up to date.**

💻 WEBSITE & REPORTING

Multi-Page Website, SEO & Lead Funnels

A full professional website with SEO-ready structure and conversion-optimised funnel pages, plus a custom logo, CMS, and social branding. **You get found on Google and built to turn visitors into customers.**

Monthly Performance Dashboard

A clear monthly report showing calls, chats, leads, bookings, and reviews your AI delivered. **You see exactly what you're getting for your money, every single month.**

INCLUDED IN THIS PLAN · PLUS EVERYTHING IN AI RECEPTIONIST

- ✓ Omnichannel chat: WhatsApp, IG, FB & web
- ✓ Two-way SMS conversations at scale
- ✓ Long-term lead nurture campaigns
- ✓ Automated Google & Facebook review requests
- ✓ Full visual sales pipeline / CRM
- ✓ Multi-page professional website
- ✓ Lead funnels & conversion pages
- ✓ Automatic lead qualification & scoring
- ✓ Automated SMS + email follow-up sequences
- ✓ Contact tagging & smart segmentation
- ✓ Reputation monitoring & alerts
- ✓ Calendar sync (Google & Outlook)
- ✓ SEO-ready structure & metadata
- ✓ Monthly performance dashboard & report

THE SMART COMPARISON

A Whole Team's Work, **One Quiet Hire.**

To do all of this by hand you'd need people answering chats, qualifying leads, chasing follow-ups, and updating a CRM all day. Your AI Employee does it across every channel at once, for a fraction of the cost, and it never clocks out.

COMPARISON	DOING IT BY HAND	AI EMPLOYEE
Channels Covered	✗ A few, when someone's free	✓ Calls, chat, social & SMS
Lead Response Time	✗ Often hours later	✓ Under 60 seconds
Follow-Up	✗ Once, if remembered	✓ Every lead, automatically
Working Hours	✗ 8–9 hrs / day	✓ 24 / 7 / 365
Monthly Cost	✗ A full hire, \$4,000+	✓ From \$418 / mo

WHAT THIS LOOKS LIKE IN PRACTICE

The Kind of Result We Build Toward.

5x more leads converted

ILLUSTRATIVE SCENARIO

THE CHALLENGE

Leads were coming in from calls, chats, and forms, but replies were slow and follow-up was hit or miss. Many promising leads went cold before anyone got back to them.

WITH AN AI EMPLOYEE

Every lead now gets a reply in seconds on any channel, then an automatic follow-up sequence until they book or opt out. Quiet leads get revived instead of forgotten.

The scenario above is an illustrative example of the outcomes this type of system is built to deliver. Actual results vary by business, lead volume, and offer, but the goal is always the same: convert more of the demand you already have.

YOUR PLAN & PRICING

An Entire Sales Team for a Fraction of One Salary.

AI Employee

★ MOST POPULAR
