ACCOUNT MANAGER

WHAT YOU GET

- ✓ AI voice agent answers your calls 24/7
- ✓ Follows up with every lead until they book
- ✓ Custom AI workflows for your business
- ✓ Quarterly strategy & A/B testing
- ✓ Everything in the AI Employee plan
- ✓ Revives your old & past customers
- ✓ Dedicated account manager + priority support
- ✓ Advanced ROI & revenue reports

THE TRUTH

Answering and Posting Is Great. **Now Let's Actually Grow.**

Once every message is answered and your social media runs itself, the next level of growth comes from chasing every lead until they buy, winning back old customers you've forgotten, and constantly improving what works. That's a full growth team's job. The AI Growth Suite does all of it for you, and gives you a real person to guide the strategy, so your business keeps growing without you doing the heavy lifting.

Everything in the AI Employee and AI Receptionist plans is included, plus all of the growth features below.

ALREADY INCLUDED FROM LOWER PLANS

- ✓ Replies on WhatsApp, Instagram, Facebook & website
- ✓ Complete automatic booking flow
- ✓ All conversations in one inbox
- ✓ Weekly & monthly reports
- ✓ AI-written posts on FB, Instagram, LinkedIn & TikTok
- ✓ Google review requests, replies & monitoring
- ✓ Smart CRM with lead scoring
- ✓ And everything else from Plans 1 & 2

Meet Your AI Growth Suite

This is your AI Employee, upgraded into a full growth engine, now with a real AI voice agent that answers your phone calls. On top of answering calls, replying, posting, booking, and reviews, it chases every lead until they book, brings your old and past customers back to life, and runs on custom automations built around exactly how your business works. You also get a dedicated account manager and regular strategy sessions to keep it all improving. It's the closest thing to a full marketing team, running on autopilot.

IT ANSWERS YOUR CALLS

A real AI voice agent picks up every call, day and night, and books your customers.

24/7 AI Voice Agent

A natural-sounding AI answers every phone call around the clock. It greets the caller, answers their questions, and books them in, just like a great receptionist who never sleeps.

HOW IT WORKS

- 1 We set up your dedicated AI phone line.
- 2 Every incoming call is answered instantly by the AI voice agent.
- 3 It answers questions and books the appointment live, on the call.

What this means for you: every call is picked up, even after hours, so you never lose a customer to a missed call or a voicemail again.

Missed-Call Text-Back & Call Records

If a call is ever missed, the caller instantly gets a friendly text so the conversation keeps going. Every call is also recorded and written out in plain text for you.

What this means for you: you recover callers you would have lost, and you can always see exactly what each caller wanted.

IT CHASES & REVIVES CUSTOMERS

It goes after the business you're already sitting on, and never lets a lead go cold.

Follows Up With Every Lead, Until They Book

When someone shows interest but doesn't book straight away, the AI keeps gently following up over WhatsApp, SMS, and email, until they book or ask to stop.

HOW IT WORKS

- 1 A lead replies or enquires but doesn't book yet.
- 2 The AI sends friendly, well-timed follow-up messages automatically.
- 3 It keeps going until they book a slot, or politely opt out.

What this means for you: you stop losing the "maybe later" customers, the ones most businesses forget about, and turn far more of them into bookings.

Revives Your Old & Past Customers

The AI reaches back out to your old leads and past customers with the right message, turning a forgotten contact list into fresh bookings.

HOW IT WORKS

- 1 We import your old leads and past customers (even a messy list is fine).
- 2 The AI sends them a warm "we'd love to see you again" message.
- 3 Interested people are answered and booked, automatically.

What this means for you: new revenue from people you already know, at almost no extra cost, usually the fastest win this plan delivers.

IT'S BUILT AROUND YOUR BUSINESS

Not a generic template, automations shaped to exactly how you work.

Custom AI Workflows For Your Business

We map exactly how your business runs, from first message to happy customer, and build the AI to follow your steps, your rules, and your way of doing things.

HOW IT WORKS

- 1 We learn your exact process and the steps you take with customers.
- 2 We build custom automations that mirror those steps.
- 3 The system runs them automatically, and we refine as you grow.

What this means for you: the system fits your business like a glove and quietly removes the repetitive tasks that eat your team's time.

A REAL TEAM BEHIND YOU

A dedicated person and ongoing strategy, so it keeps getting better over time.

Dedicated Account Manager & Priority Support

You get a real person who knows your business, watches your results, and is there whenever you need them, with your requests handled first.

What this means for you: a growth partner invested in your success, not a slow support queue, so you're never stuck and the system keeps improving.

Quarterly Strategy & A/B Testing

Every few months we sit down to plan your next wins, and in between, the system keeps testing different messages and posts to find what works best.

HOW IT WORKS

- 1 Each quarter we review your numbers and set new targets together.
- 2 The AI tests different messages, offers, and posts side by side.
- 3 Winners are kept, losers are dropped, automatically.

What this means for you: your results compound, getting better and cheaper per customer over time, instead of going stale.

Advanced ROI & Revenue Reports

Beyond the standard reports, you see exactly which channels and campaigns bring in which customers and revenue, so you know precisely what's working.

What this means for you: clear proof of your return, so you can confidently put more into what makes money and stop wasting effort elsewhere.

HOW IT ALL WORKS TOGETHER

A Complete Growth Engine, Running For You.

On top of everything your AI Employee already does, here's the extra growth work that runs in the background, every day.

1 It answers your calls

A real AI voice agent picks up every phone call 24/7, answers questions, and books customers in.

2 It captures every lead

From your replies, posts, website, and reviews, every interested person is captured and scored.

3 It chases the ones who don't book

Automatic follow-up over WhatsApp, SMS, and email keeps going until they book or opt out.

4 It wins back old customers

Your past customers and old leads get a friendly nudge, turning a forgotten list into new bookings.

5 It runs your custom workflows

Everything follows your exact process automatically, with no manual steps.

6 Your manager keeps improving it

Quarterly strategy and constant A/B testing make the whole system sharper over time.

7 You see exactly what's working

Advanced reports show which channels and campaigns bring in real revenue.

WHY BUSINESSES CHOOSE THIS PLAN

Just Keeping Up, or Truly Growing.

WITHOUT THE GROWTH SUITE

- ✗ "Maybe later" leads are forgotten and lost
- ✗ Old customers never hear from you again
- ✗ Generic setup that doesn't fit your business
- ✗ No one guiding the strategy
- ✗ You guess what's actually working

WITH YOUR AI GROWTH SUITE

- ✓ Every lead chased until they book or opt out
- ✓ Old customers revived into fresh bookings
- ✓ Custom automations built around your business
- ✓ A dedicated manager guiding your growth
- ✓ Clear reports show exactly what makes money
